

Cybersecurity Portfolio Website

Client Intake Questionnaire | Basic details needed to design and build your site

This checklist was compiled by reviewing common structures used across cybersecurity professional portfolios (analysts, pentesters, SOC/blue-team, GRC). Fill in as much as you can — skip anything not applicable to you yet, and you can update it later.

1. Personal & Contact Details

1. Full name (and preferred display name / handle, if different)

Prince Bhagat

2. Professional title / role

e.g. "Security Analyst", "Penetration Tester", "SOC Engineer", "GRC Consultant"

Security researcher

3. Short tagline for the homepage (one sentence)

e.g. "Helping organisations find weaknesses before attackers do."

4. Location / region (city, country) — or "Remote"

Kathmandu, Nepal

5. Professional email address for the contact form/footer

Bhagatprince365@gmail.com

6. Phone number (optional — only if you want it public)

9819984646

7. Links: LinkedIn, GitHub, Twitter/X, TryHackMe/HackTheBox profile, personal blog

LinkedIn account link: <https://www.linkedin.com/in/prince-bhagat-247125407/>

GitHub account link: <https://github.com/Princebhagat001>

Tryhackme account link: <https://tryhackme.com/p/Princebhagat001>

Hackthebox account link:

8. Do you have a professional headshot/photo ready? (yes/no, attach or describe)

Yes I will keep it in file and name it as princebhagat

9. Preferred domain name (if already decided)

e.g. *yourname.com* / *yournamesecurity.com*

princebhagat.com.np

2. About Me / Bio

10. Short bio (2–4 sentences) covering background, career goals, and area of interest

11. Years of experience in cybersecurity / IT

12. Current employer or academic institution (optional)

13. Specialisation / focus area

e.g. offensive security, blue team/SOC, cloud security, GRC, malware analysis, AppSec

offensive security ctf player

14. Personal interests to mention (CTFs, gaming, podcasts, open-source, etc.)

Ctfs

3. Skills & Tools

15. Technical skills / domains

e.g. network security, penetration testing, incident response, digital forensics, cloud security

network security, penetration testing

16. Tools & platforms you use

e.g. Wireshark, Metasploit, Burp Suite, Splunk, Nmap, Nessus, SIEM tools

wireshark Nmap Metasploit burp suite

17. Programming/scripting languages

e.g. Python, Bash, PowerShell, C

Python batch powershell

18. Should skills be shown as a list, percentage bars, or badges/logos? (pick one)

Percentage bar

4. Certifications & Education

19. Certifications held (name, issuing body, year)

e.g. CompTIA Security+, CEH, OSCP, CISSP — include verification links if available

no certificate for

now

20. In-progress or planned certifications

21. Education (degree, institution, year)

School name: Shree Janta Higher secondary School

Field of study: SEE

Starting year:2022 Ending year:2023

School name: Shiksha Deep secondary School

Field of study: Higher secondary

Starting year:2023 Ending year:2025

School name: Herald college Kathmandu

Field of study: BSc(Hons) Cybersecurity

Starting year:2025 Ending year:present

22. Do you want certification badges/logos displayed, or text only?

5. Projects & Case Studies

For each project you want featured (aim for 3–5), provide:

- Project title
- Short description / objective
- Your role and the tools/methodology used
- Challenges faced and how you solved them
- Outcome / result (quantify if possible)
- Links: GitHub repo, write-up, live demo, or report (redact anything confidential)

23. List your 3–5 projects here (title + one-line summary for each)

24. Any CTF write-ups or lab exercises to include? (platform + challenge names)

25. Any responsible disclosures / bug bounty highlights? (only what you're permitted to share)

6. Work Experience

26. Roles to list (job title, company, dates) — most recent first

no work experience

27. Key responsibilities/achievements per role (brief bullet points)

28. Do you want a downloadable resume/CV linked on the site? (yes/no)

Yes

7. Design, Branding & Technical Preferences

29. Preferred colour scheme / theme

e.g. dark "hacker" terminal style, minimal corporate, navy & accent color

use colour

30. Any brand assets already available? (logo, fonts, color codes)

Use fonts: Josefin Sansa v34 and open sansa v44

31. Reference sites/portfolios you like the look of (links)

32. Single-page or multi-page site? Any specific pages required (Blog, Testimonials, Resume)?

Single page

33. Hosting/domain already set up, or need guidance?

I'll do it latter by own

34. Do you want a contact form, or just an email link/social links?

Need contact form
